

STSCI 4060 HW 5

(Assigned: 4/12/2019; Due: 11:59 PM, 4/19/2019)

General instructions:

1. Do your own work. Cornell academic integrity rules are enforced. In this class, copying code from the Internet, fellow students or elsewhere is prohibited.
2. You will practice IPython notebook using some Python packages, such as NumPy and matplotlib in this homework. Read the instructions which are provided in the form of IPython notebook, HW5.ipynb. You need to upload it into your own notebook (using the Upload button on your Jupyter Home).
Enter all your answers into that IPython notebook.
3. What and how to turn in:
 - Your IPython notebook named **STSCI4060_HW5_LastName_FirstName.ipynb**.
 - An HTML version of the IPython notebook named **STSCI4060_HW5_LastName_FirstName.html**.
 - Use 7-ZIP (or a similar tool) to combine your two files into one file, named **STSCI4060_HW5_LastName_FirstName.zip**. Submit the ZIP file to the course website.
